

Advocacy Committee:

Terms of Reference:

This AD Hoc committee consists of a blend of Individual members, Professional and Corporate members.

The intent of this committee is to ensure the Ministry of Health are aware of the problem faced by Lymphedema patients, to understand the lack of service and funding and the implications of that lack as it relates to Lymphedema patients. To present a case on asking for funding for Lymphedema Patients.

This will be achieved by:

- 1, Researching advocacy resources, strategies.
2. Gathering history of what has been successful with other provinces and comparative data on Health Care spending.
3. Preparing educational materials for members of the Legislature & Ministry of Health to fully understand the problem.
4. Preparing a plan to build support both within the public community, and amongst elected officials.
5. Preparing for meetings with the appropriate elected officials.
6. Co-ordinating with communications & Publicity committees to ensure that our message goes out across the Province during March 2021
7. Maintain a record of activity through minutes of meetings
